

HEAVY DUTY MAX BUCKETS

Reinforced Buckets Designed for Skid Steers

New design means improved capacity, greater strength, less weight.

The *ONLY* bucket on the market with lower side wear plates

Radius bottom with square reinforced heel (Great for back dragging)

1/2" x 3" Hardened beveled edge

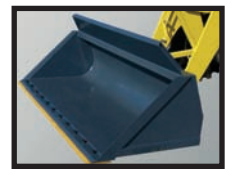

Pre-drilled for optional bolt-on reversible cutting edges

1/2" x 6" Hardened cutting edge

Product Features:

Greater strength with less weight because of our improved structural design means more machine capacity!

- ✓ UNIVERSAL QUICK COUPLER mounting plates
- ✓ Optional coupler or direct pin-on plates available
- ✓ UPPER BUCKET LIP REINFORCED with 2.25" x 4" tubing for extra strength
- ✓ WIDE STEP for ease of entry
- ✓ REINFORCED HEEL and four or five bottom SKID PLATES for reduced wear and increased strength
- ✓ HARDENED six inch CUTTING EDGE
- ✓ Bucket end plates include LOWER SIDE WEAR PLATE and UPPER EDGE REINFORCEMENT
- ✓ REINFORCED BUCKET RADIUS for greater strength and easy clean out
- ✓ Buckets are predrilled for optional bolt-on cutting edges
- ✓ Optional SPILL GUARD available
- ✓ TOOTH BUCKETS available with replaceable weld-on teeth
- ✓ Available for AG TRACTOR applications

Part Number	Inside Width	Outside Width	Cubic Yard	Cutting Edge	Wt.
2306004WUN	60"	62"	.4	Welded	426
2306605WUN	66"	68"	.5	Welded	449

HEAVY DUTY MAX BUCKETS

From the Name You Trust in Attachments!

MAX Snow Bucket

- Reinforced 1/2" x 4" bottom wear plates for greater strength & life
- Perforated back for better visibility
- Universal quick attach mounting plates
- Includes hardened bolt-on 3/4" thick bottom cutting edge & welded 3/8" x 3" side cutting edges

Part Number	Width	Cubic Ft.	Cutting Edge	Weight
18434BUNSB	84"	1.3	Bolt-On	750
19639BUNSB	96"	1.5	Bolt-On	850

MAX Grapple Bucket

- Cut-away bucket end plates accommodate wider material
- Optional bolt on end plates for greater bulk capacity
- Reinforced bucket radius for strength, rigidity, easy clean out & back dragging
- Four bucket skid plates for strength and wear
- Two 2" heavy duty cylinders with cylinder guards
- Four grapple arms make up two heavy duty reinforced grapple assemblies
- Grapple arm hinge points use self lubricating bronze bushings
- Universal quick coupler standard - Other couplers available
- 3000 PSI Hydraulic components
- Optional weld-on teeth available

Part Number	Outside Width	Bucket Depth	Cubic Yard*	Height Closed	Height Open	Inside Opening	Weight
2306605WUNG	66"	30"	0.6	28"	47"	42"	820
2307206WUNG	72"	30"	0.7	28"	47"	42"	840

* With end plates installed
