

# HEAVY DUTY MAX BUCKETS

**Reinforced Buckets Designed for Skid Steers**

New design means improved capacity, greater strength, less weight.

ONLY bucket with lower side wear plates

Radius bottom with square reinforced heel (Great for back dragging)

1/2" x 3" Hardened beveled edge

Pre-drilled for optional bolt-on reversible cutting edges

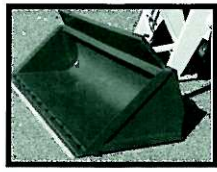

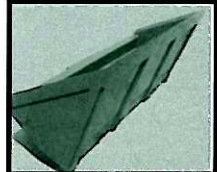

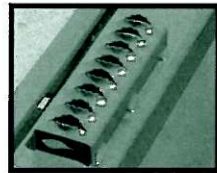

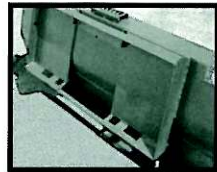

1/2" x 6" Hardened cutting edge

## Product Features:

**Greater strength with less weight because of our improved structural design, means more machine capacity!**

Part Number	Inside Width	Outside Width	Cubic Yard	Cutting Edge	Wt.
2306004W	60"	62"	.4	Welded	426
2306605W	66"	68"	.5	Welded	449
2307206W	72"	74"	.6	Welded	470
2308407W	84"	86"	.7	Welded	530
2306004B	60"	62"	.4	Bolt On	465
2306605B	66"	68"	.5	Bolt On	500
2307206B	72"	74"	.6	Bolt On	535
2308407B	84"	86"	.7	Bolt On	604

- ✓ UNIVERSAL QUICK COUPLER mounting plates
- ✓ Optional coupler or direct pin-on plates available
- ✓ UPPER BUCKET LIP REINFORCED with 2.25" x 4" tubing for extra strength
- ✓ WIDE STEP for ease of entry
- ✓ REINFORCED HEEL and four or five bottom SKID PLATES for reduced wear and increased strength
- ✓ HARDENED six inch CUTTING EDGE
- ✓ Bucket end plates include LOWER SIDE WEAR PLATE and UPPER EDGE REINFORCEMENT
- ✓ REINFORCED BUCKET RADIUS for greater strength and easy clean out
- ✓ Buckets are predrilled for optional bolt-on cutting edges
- ✓ Optional SPILL GUARD available
- ✓ TOOTH BUCKETS available with replaceable weld-on teeth
- ✓ Available for AG TRACTOR applications
